

# 15 Ways To Protect Your Business From A **CYBER ATTACK!**

**SECURITY ASSESSMENT:** It's important to establish a baseline and close existing vulnerabilities.  
When was your last assessment? Date: \_\_\_\_\_

<p><input type="checkbox"/> <b>Managed Firewall</b></p> <p>Turn on Intrusion Detection and Intrusion Prevention features. Send the log files to a managed SEIM for log analysis. And if your IT team doesn't know what these things are, call us Today!</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Security Awareness</b></p> <p>Train your users – often! Teach them about data security, email attacks, and your policies and procedures. We offer a web-based training solution and “done for you” security policies.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Managed Encryption</b></p> <p>Whenever possible, the goal is to encrypt files at rest, in motion (think email) and especially on mobile devices.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>
<p><input type="checkbox"/> <b>Advanced Endpoint Security</b></p> <p>Protect your computers and data from malware, viruses, and cyber-attacks with advanced endpoint security. Today's latest behavior-based technology protects against file-less and script-based threats and can even rollback a ransomware attack.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Multi-Factor Authentication</b></p> <p>Utilize Multi-Factor Authentication whenever you can in your network, banking websites, and even social media. It adds an additional layer of protection to ensure that even if your password does get stolen, your data stays protected.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Mobile Device Security</b></p> <p>Today's cyber criminals attempt to steal data or access your network by way of your employees' phones and tablets. They're counting on you to neglect this piece of the puzzle. Mobile device security closes this gap.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>
<p><input type="checkbox"/> <b>Managed Backups</b></p> <p>Backup locally. Backup to the Cloud. Have an offline backup for each month of the year. Test your backups often. And if you aren't monitoring your backups or convinced they are working properly, call us ASAP!</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	 <p><b>forever ON TECHNOLOGY SOLUTIONS</b></p>	<p><input type="checkbox"/> <b>Web Gateway Security</b></p> <p>Internet security is a race against time. Cloud based security detects web and email threats as they emerge on the internet and blocks them on your network within seconds – before they reach the user.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>
<p><input type="checkbox"/> <b>Email Protection</b></p> <p>Secure your email. Most attacks originate in your email. We'll help you choose a service designed to reduce spam and your exposure to attacks on your staff via email.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Passwords</b></p> <p>Apply security policies on your network. Examples: Deny or limit USB files storage access, enable enhanced password policies, set user screen timeouts and limit user access.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Managed Website</b></p> <p>Your website is the face of your business. It requires updates, regular maintenance and security just like your computer. Protect your website and domain.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>
<p><input type="checkbox"/> <b>Computer Updates</b></p> <p>Keep Microsoft, Adobe, Java and other 3<sup>rd</sup> Party products updated for better security. We provide a “critical update” service via automation to protect your computers from the latest known attacks.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Dark Web Monitoring</b></p> <p>Knowing in real-time what passwords and accounts have been posted on the Dark Web will allow you to be proactive in preventing a data breach. We scan the Dark Web and take action to protect your business from stolen credentials.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>	<p><input type="checkbox"/> <b>Cyber Insurance</b></p> <p>If all else fails, protect your income and business with cyber damage and recovery insurance policies.</p> <p><input type="checkbox"/> Sign Up <input type="checkbox"/> Decline</p>

## Cyber Security Service Selection

The following products and services are designed to add multiple layers of security within your network. Research has found that everything is hackable; the more layers of protection between threat actors and your data, the more difficult the chance of success. Due to the increased number of attacks and the ever-improving skills required to protect your network, we recommend the following to:

Company Name: \_\_\_\_\_

	Included	Add	Decline
Please schedule a <b>Vulnerability Assessment</b> on my network: ____/____/____			
Please upgrade/add <b>SPAM Protection</b> to my account:			
Add <b>Password Security</b> and other reasonable Group Policies to our network:			
Please add employee <b>Security Awareness Training</b> for our staff:			
Please upgrade our existing anti-virus to <b>Advanced Endpoint Security</b> :			
Please add <b>Multi-Factor Authentication</b> to our network:			
Please provide timely <b>Security Updates &amp; Patch Management</b> on our network:			
Please add monthly <b>Dark Web Monitoring &amp; Reporting</b> to our account:			
Please upgrade our <b>Firewall</b> to include <b>Advanced Threat Protection</b> :			
Please add these <b>Encryption</b> Services to our account: <input type="checkbox"/> Laptops <input type="checkbox"/> Desktops <input type="checkbox"/> Mobile Devices <input type="checkbox"/> Email			
Please upgrade our <b>Backup Services</b> to include: <input type="checkbox"/> Local <input type="checkbox"/> Cloud <input type="checkbox"/> Offline <input type="checkbox"/> Business Continuity			
Please add ...			
Please add: <input type="checkbox"/> <b>DNS Filter Security</b> <input type="checkbox"/> <b>Web Security Gateway</b> to our account:			

By signing below, I acknowledge that I have read and understood these recommendations and the advice being given. I intentionally approve and/or decline services as indicated above. I also understand that I am eligible to add additional services to protect my network and our data at any time prior to a cyber-attack. If some recommended services were declined, I understand that we, as the data owner, are ultimately responsible for the protection of data and that service disruption, downtime and extra costs are part of the risk associated with cyber-attacks.
